

Flower Arrangement 1

Use 1/8" paper unless specified.

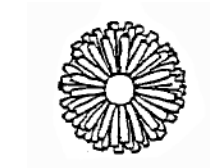

Container

Weave 7 horizontal 1½" lengths of rust paper and 5 vertical 1½" lengths of rust paper together. Glue where the vertical strips cross the horizontal strips. Using the pattern on the right, cut out the basket shape. The basket should measure 1⅛" wide by ⅞" high. (Do not glue the basket flat to the background; see assembly instructions below.)

Large Fringed Flowers with centers (make 5)

Fringe a 3½" length of ⅜" wide mauve paper, then glue a 1½" length of ⅛" rose paper to the end. Starting with the ⅛" rose paper, roll a tight circle. Using your fingers, push the fringes outward as shown in the diagram.

Small Fringed Flowers (make 4)

Fringe a 3" length of ¼" yellow paper and roll into a tight circle. Using your fingers, push the fringes outward as shown in the diagram.

Hyacinths (make 2 yellow and 2 soft yellow)

Roll approximately 18 loose scrolls of ½" lengths of narrow paper. Cut three 2½" lengths of wire and one 3" length of wire. Glue the loose scrolls evenly onto the top ⅝" of all four lengths of wire.

Two-tone Big Leaf

Cut a 3½" leaf shape out of ¼" green paper and a slightly smaller one out of ¼" soft green paper. Glue the smaller leaf on top of the larger leaf as shown at right.

Long Leaves (make 4)

Cut four long leaf shapes using narrow green paper, varying the lengths from 3½" to 4½".

Small Leaves (make 5)

Roll ten 2" pale green teardrops and glue two each to ¾" lengths of pale green paper.

Buds (make 5 yellow and 2 mauve)

Fringe 1½" lengths of ¼" yellow and mauve paper and roll into tight circles. To make the calyx for each bud, roll a 3" grape roll, using pale green paper. Glue the buds into each calyx and glue them to ½" lengths of green paper for the stems.

Assembly

First, curve the top center of the basket out slightly and glue its sides and bottom to the background. Arrange the flowers and leaves in the basket as shown in the photo, and glue them in place.
