

Amaryllis care: Place in a pot 2" larger than the bulb. Fill in with potting soil, leaving the top one-third of the bulb exposed. Water thoroughly. Place in bright, diffused light. As new growth emerges, keep soil evenly moist. Blooms generally appear in 6-8 weeks.

Paperwhites care: Place bulbs shoulder to shoulder in pot. Fill in with potting soil, leaving the top third of the bulbs exposed. Water thoroughly. Place in bright light. Keep evenly moist. Flowers appear in 3-4 weeks.
