

Templates: Good Things “Flying Bats”

from *Martha Stewart Living* | www.marthastewart.com

Print templates on 8½-by-11-inch paper, and cut out. To make 1 whole bat, fold sheet of heavyweight black paper or card stock in half widthwise. Then place template's straight edge along fold, and trace outline. Cut out along traced line, and unfold. Then fold bat's wings where template's dotted lines indicate. Repeat for each bat.
