

## Menu card

Type in your menu, adding an extra line space between items. Print on cover-weight paper or card stock (110 lb. or heavier). Use a craft knife and a metal straight edge, or a paper trimmer if you have one, to cut menus apart, leaving a uniform space around the border.

We used:

8-1/2"-by-11" 110-lb. cover-weight paper (C42492) in natural white, \$7.95 for 25 sheets, from Paper Presentation, 800-727-3701.
