

## Good Living: Paper Kite

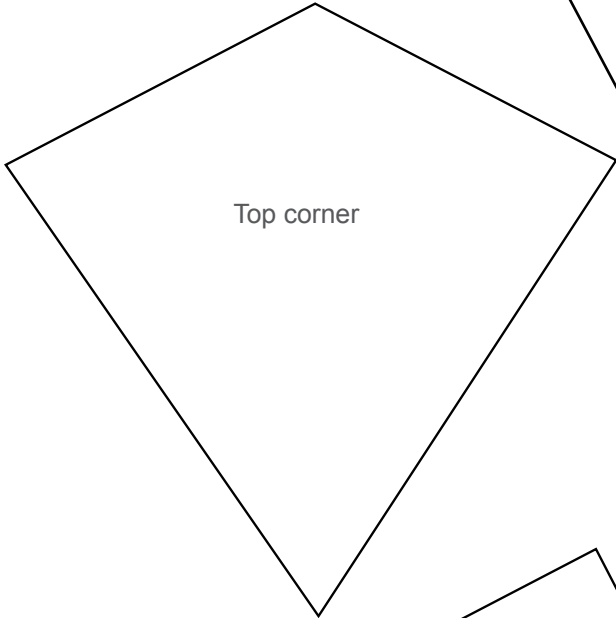

from *Martha Stewart Living* | [www.marthastewart.com](http://www.marthastewart.com)

Use the image below as a guide. To tile template, lay sheets out on a work space. Using a ruler and craft knife, trim left side of each sheet at vertical crop marks. Repeat process to trim bottom of each sheet. Using remaining crop marks as guide, align design and tape sheets together. Cut out finished template.

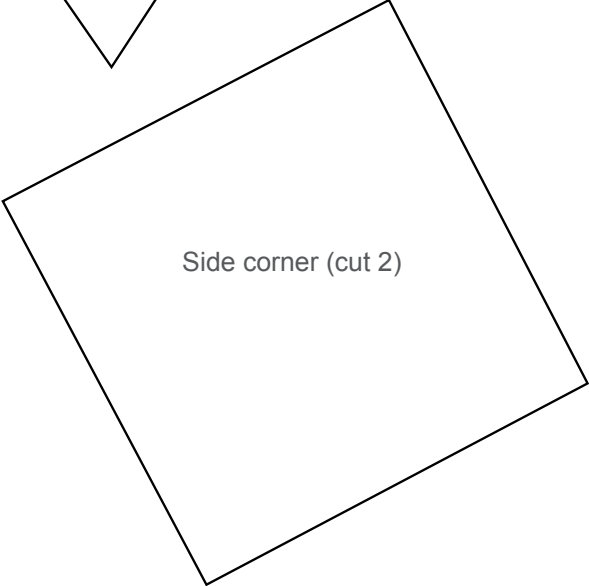

Tiled sheets create half of the kite. You will need to trace template onto pattern, then flip template, align at center, and trace to create completed shape below.
