

## Template: "A Cake Takes Shape": Fish (assembly diagram)

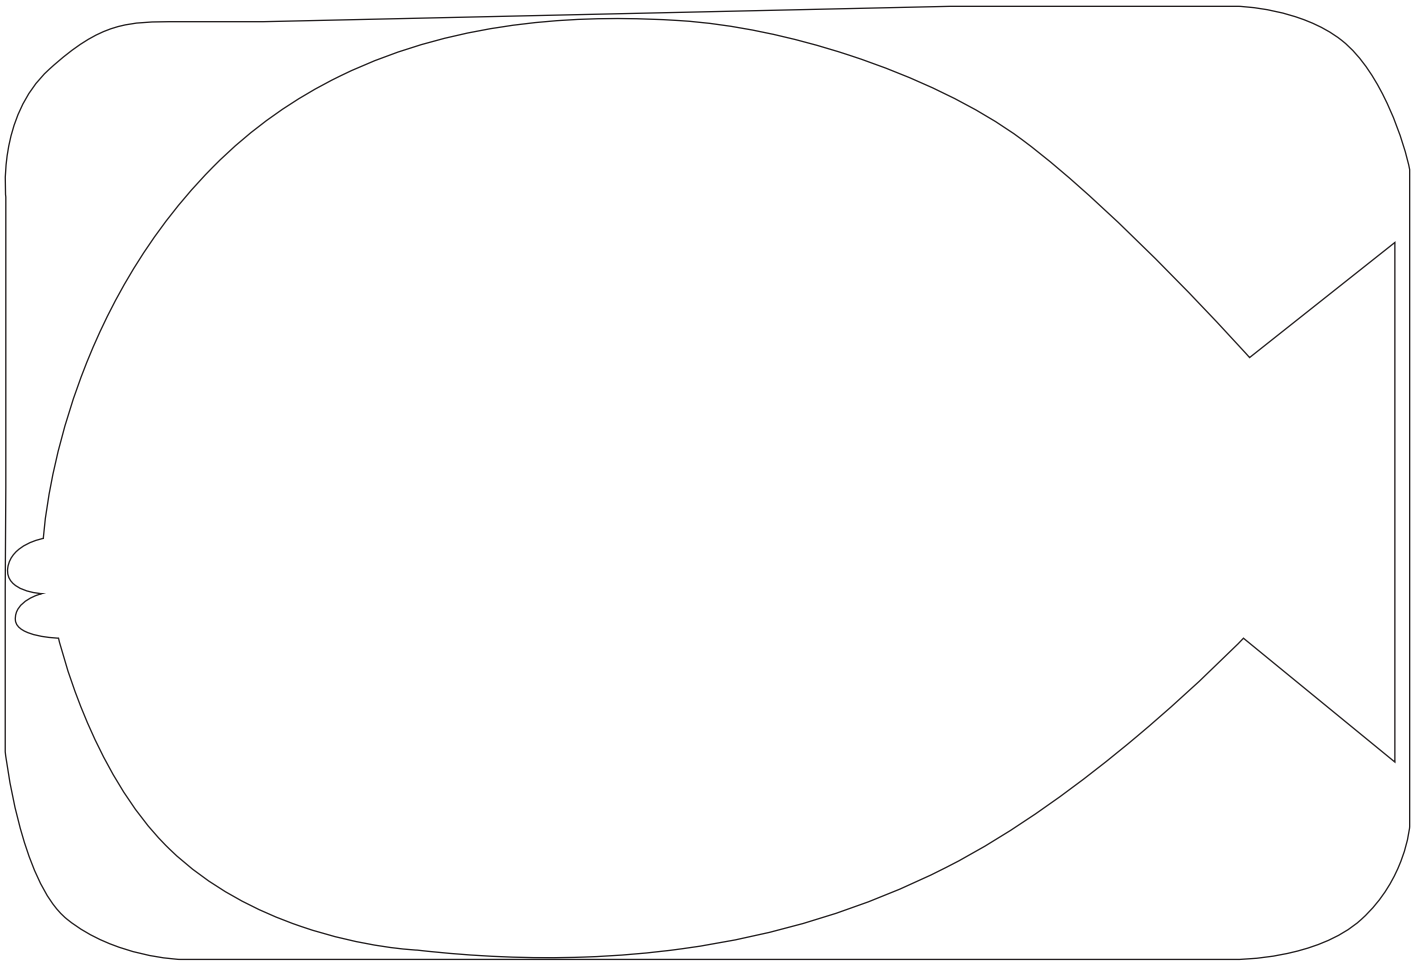

from *Martha Stewart Living* | [www.marthastewart.com](http://www.marthastewart.com)

Use this page as a reference for the fish's assembly: Templates for the head, body, tail, eyes, and fins follow the cake diagrams. Print templates on card stock, and cut out. To assemble the fish's body pattern, lay head and body templates out on a work space. Using a ruler and a craft knife, trim left side of each pattern at the vertical crop marks. Repeat process to trim bottom of each sheet. Using remaining crop marks as guide, align design and tape sheets together. Arrange body template on one sheet cake, as demonstrated in cake diagram 1. Trace around templates with a paring knife, cutting out the body. Arrange eyes, fins, and tail on the other cake, as demonstrated in diagram 2. Trace around templates with a paring knife, cutting out the shapes. Halve the smallest fin (the side fin) and circular eyeball pieces horizontally. Assemble cake pieces as shown.
